

★ **RIHANNA** is a woman who knows what she likes – so much so that she's started taking her own pics for magazine shoots.

The We Found Love songstress, 27, appears on the front of the new issue of Fader mag, but the snap is actually a selfie rather than a glamorous pic taken by a pro.

★ In the edgy shot, RiRi is blowing out smoke, and showing just a little skin where her tattoo of a gun sits.

And the photos aren't the only thing Ri approves of. She shared the publication's headline on Instagram.

★ It reads: "In a world of phonies, Rihanna is the realest."

"How she manages this, we may never know."

★ She also boasted about taking the photos, writing: "New cover for @theFADER out now! #FADER100 shot by moi @renataraksha let me takeover her s...!!!"

★ **JUSTIN Bieber** has blamed fame-hungry police for his bad-boy reputation.

The troubled star, 21, has insisted he wasn't doing anything for wrong when he was arrested last year and reckons the cops wanted their five seconds of fame.

Biebs claimed: "The police just wanted press. I never was speeding, I never was drag racing."

"The cop supposedly wanted to be famous for arresting celebrities."

★ **THERE'S** finally an explanation for **Pixie Lott's** ever-changing hair colour.

The Nasty hitmaker, 24, recently debuted three different hair colours in one week, going from green to blue to pink.

She's not having an image crisis – she's promoting a product which lets you colour in your locks.

Pixie has teamed up with Superdrug to launch a new hair colouring range called **PAINT**. She squealed: "I love experimenting with my hair."
