This is a stunning reinterpretation of the best of Billie Holiday's classic songs, some of which featured on her iconic record of the same name. Recorded at the world famous Capitol Studios in Los Angeles, Rebecca wanted to work there as it was where the legendary blues singer herself recorded. Rebecca, whose first album 'Heaven' sold over a million copies, will be performing 'Lady Sings The Blues' at a series of intimate shows during February and March. at St James Theatre in London. The album will be released by RCA Records on 9<sup>th</sup> March in Billie's centenary year.
