

Introducing
WSTRN

R&B trio **WSTRN**, made up of **Akelle Charles** and **Haile** and **Louis Rei**, are signed to Atlantic Records.

Their debut single In2 hit No.4 last year and new track A-List is now climbing the charts. Akelle also features on **Tulisa's** comeback single, a cover of 90s hit Sweet Like Chocolate, out now.

Q: How would you describe WSTRN?

A: We are a mix of reggae, soul, R&B and old street jazz with a fresh new vibe.

Q: When can fans expect an album?

A: We are busy in the studio creating music all the time. The album won't be out until early 2017 but there will be more music before then.

Q: Tell me about the Tulisa collaboration

A: We were asked to go into the studio with her and see what we could come up with. I'm not sure if she's working on an album or just singles but we were happy to add our WSTRN magic.

Q: Are you a fan?

A: We respect she is doing her thing. We worked on some more music but it wasn't finished.

ELTON John is thrilled to be on the same billing as **Britney Spears**, **Alicia Keys** and **Robbie Williams** for this year's Apple Music Festival. The **Rocket Man** said: "I'm so excited. I love London and can't wait to share this fantastic experience with my fans." **Calvin Harris** will also perform. See applemusicfestival.com.
